Indexed performance (net of fees)

Fund description / Investment strategy

Reichmuth Matterhorn+ invests in alternative investment strategies worldwide. The portfolio is focused on 15-25 managers with specialist know-how and diversified across different investment styles. The individual funds pursue active investment strategies and do not follow a benchmark. The funds are selected according to a standardized selection process. Thanks to the individual skills of the managers and the flexibility in strategy allocation, we expect a higher risk-adjusted return over a market cycle compared to traditional investment funds.
